Fire – Rescue

Since 2011 there has been a marked decline in volunteer participation. In response, the Goochland County Board of Supervisors has increased the amount of career staff more than 200%.

Currently there are 33 field providers working across 3-shifts. On a daily basis at least 3 of the 6 stations are staffed with career crews. When staffing permits additional stations are staffed.

- In 2009 there were 11 field providers
- In 2018 there are 33 budgeted field positions.
- In FY2019 the Board of Supervisors approved funding for three additional dispatchers to begin providing Emergency Medical Dispatching (EMD) services to our residents

Fire – Rescue

In addition to maintaining adequate staffing levels, the location and number of stations is also important. Currently our stations cover an average of 47.6 sq./mi. each. Population growth and density, along with the addition of commercial properties will require additional or relocated stations to include:

- Property acquisition for new District 2 Fire-Rescue Station (FY19 \$350,000*)
- Property acquisition for Relocation of Existing Company 2 (FY19 \$350,000*)
- West Creek Fire-Rescue Station (\$5.5 million* to be built in FY20-21)
